Denixo the Civil War many Quarter masters sent home captured horses and other property which belonged to the Government many Commissaries feet their own families out of the supplies provided so lavishly for the soldiers many Medical Officers stocked their own cellars and larders with the wines, liquors and delicacles which had been generously set spart for the sick. Maybe the same has been done in the Spanish-American War, where the opportunities have been numerous and the temptations greater; for the soldiers of the Civil War did not far so well as their latter day comrades. The canned-goods indistry was then comparatively unknown, about the only luxury in that line being condensed milk. Now, however, there is the finest of canned cream, with fruits, vegetables, sough, mest, pouls had is all officially in this direction, the blams does not rest upon the devoted head of Scertary Atokin, but the parties themselves i ould be hunted down and properly punished.
